

SMT Consulting

Background

SMT is a specialist supply chain consultancy that provides supply chain consulting and technology solutions to leading Australian and International companies. SMT has over the past 20 years developed skills in a wide range of industry sectors.

Since incorporation, SMT has undertaken a wide range of client assignments, undertaking numerous supply chain, logistics, logistics support, transport and warehousing reviews, as well as systems implementations.

SMT Consulting has a focused consulting methodology with an emphasis on delivering bottom line results. SMT offers both review and implementation services to its wide range of clients.

SMT Value Proposition

- Business & technology consulting that links to financial performance improvement
- Delivery of demonstrable improvements in inventory, operating expense and increases in supply chain throughput
- Improvements to logistics execution processes
- Practical and proven culture change with the ability to work at all levels in the organisation

SMT Skills and Alliances

SMT Consulting has offices in Sydney and Melbourne, but operates assignments throughout Australia, Asia and Europe. SMT maintains full time consultants to ensure consistency and the quality of its work.

SAP and JDA/Manugistics are SMT's major technology partners. In 2001 SMT received the Best Supply Chain Implementation award from SAP.
